INTRODUCTION

Sustainable Development Goals (SGDs) are something a global understanding agreed by world leaders to promote development sustainable. The Village SDGs are effort integrated creating a free village hunger and poverty, economics grow even, healthy, caring environment, care to educational, friendly with women, networking, responsive culture. With thereby effort for acceleration development can achieved and running in a way sustainable. Principles implementation of the SDGs is Universality, Integration, and No One Left Behind (Wahyuningsih, 2016). Universality means that the SDGs are implemented by developed countries and developing countries. Integration means SDGs are implemented in a way integrated between dimensions social, economic and environmental. No One Left Behind has the meaning that SDG implementation must give benefit for everyone, especially the marginalized and implementing the SDGs must involve various holder interests. SDGs carry 5 principles basic balancing act dimensions economic, social and environmental, namely 1) People, 2) earth, 3) Prosperity, 4) Peace, and 5) Partnership (Panuluh & Fitri , 2016) . Fifth principle the covers 17 interlocking SDG goals and targets connected and integrated. But in reality achieving SDGs in villages Not yet achieved. Various problems and challenges faced villages in achievement of the SDGs. Various effort done by many party For help overcome problems in achievement of the Village SDGs. Government efforts in achievement of the SDGs has Lots done including:

1. Village is given authority For organize and manage interest its people , through authority village based on right origin suggestions and authority local scale village.
2. Current village This get support adequate funding _ in form of transfer funds from government and government district.

Authority a large village and supported by capacity adequate finances, it is hoped will capable speed up empowerment village going to a strong, advanced, independent and prosperous village. Olele Village is in Kabila Bone District, Bone Bolango Regency Gorontalo Province is one of them village on the edge the beach that arrived moment This Not yet achieve the SDGs targets as intended above. Problem like income per capita society still low, still exists public low poverty category level education, still low level health society, still low concern inhabitant village to environment and still its height level wedding early and divorce . Village SDGs implementation is not only task big from government central, regional, or village. Therefore That's it, academics college tall can role support acceleration implementation of Village SDGs through various various work programs and activities solution problem village.

Based on description on so need exists role college tall in achievement of SDGs targets and objectives . College tall is leading actor in success achieving SDGs in Indonesia, because own task For educate future leaders and also other SDGs actors, such as NGOs and institutions development, through knowledge transfer , research and innovation. Active role from college tall expected can become catalyst involvement non- government actors other in support

implementation of SDGs in Indonesia. As form awareness that college tall own very important role in success achievement of Village SDGs. On the matter the The Association of Experts and Lecturers of the Republic of Indonesia (ADRI) DPD Gorontalo collaborates with a number of lecturers and students do activity Collaboration Archipelago service in the village Olele Kabila Bone District , Bone Bolango Regency Gorontalo Province for help society and government village Olele in achievement of Village SDGs.

LITERATURE REVIEW

Sustainable Development Goals (SDGs) are something plan global action agreed by world leaders , including Indonesia. The urgency that is To use end poverty , reduce gap and protect environment . Response fast Indonesian government in implementation of the Global SDGs is outlined in Regulation President (Perpres) Number 59 of 2017 concerning Implementation Achieving Sustainable Development Goals. The Village SDGs are form crystallization total development over village. Entire aspect development must felt benefits to citizens village without something was missed (no one left behind).

Development role Sustainable Village SDGs are implementation of priority programs use of Village Funds (Iskandar, 2021). Village SDGs formula in an integral and systematic manner can realize village without poverty and hunger, village economy grow evenly , village care health , village care environment , village care education, village friendly women, village networking , and villages responsive culture For acceleration achievement objective development sustainable .

Iskandar's (2021) research results show that Village SDGs contribute by 74% against achievement of the Sustainable Development Goals . Refer from Regulation of the Minister of Villages, Development of Disadvantaged Regions and Transmigration Number 13 of 2020 concerning Priority Use of Village Funds in 2021, at least there are 18 goals and objectives development through the Village SDGs , namely (1) villages without poverty ; (2) village without hunger ; (3) village healthy and prosperous ; (3) education village quality ; (5) village gender equality ; (6) village adequate clean water and sanitation ; (7) an energetic village clean and renewable ; (8) jobs and growth economy village ; (9) innovation and infrastructure village ; (10) village without gap ; (11) area settlement village sustainable ; (12) consumption and production conscious village _ environment ; (13) control and change climate by village ; (14) ecosystem sea village ; (15) ecosystem mainland village ; (16) village peace and justice ; (17) partnership For development village ; (18) and institutional village dynamic and cultural village adaptive . More continued , Iskandar explained Village SDGs actions contribute by 74% against achievement of the Sustainable National Development Goals (SDGs) of aspect territoriality and citizenship (Iskandar, 2021).

From aspect regionally , 91% of Indonesia's territory is village areas , because the 11 Sustainable National Development Goals related tightly with territoriality village . Action towards achieving 12 Village SDGs (7-18) contributes 91% to achieving the National Sustainable Development Goals (numbers 7-17). Viewed from aspect citizenship , 43% of Indonesia's population is in villages (BPS, 2020), so that the 6 Sustainable National Development Goals related tightly with inhabitant village . Action towards achieving the 6 Village SDGs contributes 43% to achieving the National Sustainable Development Goals (1-6).

Efforts to achieve village SDGs in situation and conditions COVID-19 pandemic facing Lots challenge , therefore That The use of village funds in 2021 is prioritized For finance supporting activities _ achievement 18 (eight twelve) related village SDGs with activity recovery economy national , priority program national , and adaptation habit new village . Leadership role head villages and communities are very dominant in countermeasures problem poverty and inequality social (Rumkel et al., 2019).
