Established in 2014 through regulation area number 3 of 2014 concerning establishment of tourism BUMD . Sayaga PT Bogor Tourism was founded For role make object tourism and potential tour owned by government can managed in a way more professional worthy institution demanded business capable give more service good and competitive in the market in a way free, however in one side is also capable empower and encourage activity economy public especially public lower with more optimal without forget task mainly as one of the PAD contributor to Government Bogor Regency. In order to know development of BUMD, necessary held analysis evaluation results performance as facilitation effort solution problems of each BUMD. There is analysis results evaluation of BUMD PT Sayaga Bogor tourism is expected can become means For know development performance from PT Sayaga Bogor tourism and the problems faced. Based on results calculation factor profitability, profit margin ratio, ROA, and ROE value negative show that company always experience make a loss for five years final. Sayaga PT Bogor tourism is fulfilling criteria company Fairly Healthy only in 2018. Since 2019 to in 2022, PT Sayaga 's performance Bogor Tourism is classified as Unhealthy.

Keywords: Evaluation ; Performance ; Finance ; Sayaga ; Tour

INTRODUCTION

Sayaga PT Bogor Tourism is company area owned by Government Bogor Regency which operates in the field business tourist. Established in 2014 through regulation area number 3 of 2014 concerning establishment of tourism BUMD, as well as ratified by Minister of Law and Security Decree No. SK AHU-0002204.AH.01.01. 2015. PT Sayaga Bogor Tourism was founded with form company limited like Regional Companies in general which are intended to be companies own rule himself outside rule standards you have government, so expected own flexibility more game rules Good in follow competition worthy commercial companies .

Sayaga PT Bogor Tourism was founded For role make object tourism and potential tour owned by government can managed in a way more professional worthy institution demanded business capable give more service good and competitive in the market in a way free , however in one side is also capable empower and encourage activity economy public especially public lower with more optimal without forget task mainly as wrong One PAD contributor to Government Bogor Regency .

Enforcement Regional Autonomy is not always give development positive for development economy area. Lots of results study show Spirit increasing PAD is encouraged through enhancement taxes/levies area often increase cost production for entrepreneur, and hinder growing investment in the region or in other words give rise to economy cost high, so many experts believes that PAD is of good quality should through management riches separated areas. like through establishment of Regionally Owned Enterprises or other Business Entities.

One of superiority Bogor Regency is Power pull nature, which is marked with fertility land and views charming nature so that make Bogor Regency as one choice for visit tour public. On the other hand, Bogor also has become destination visit tour culinary alternative after Bandung. Lots of potential tour owned by government No Can managed in a way professional like management potency private tourism. This matter No because government area No capable For manage in a way professional, will but more to many rule restrictive bureaucracy government For Can do activity commercial with freely worthy player business pure. For that's the government Bogor Regency feels need establish a managed business entity like company private sector sued capable compete especially in an era of competition strict business with private like Now This.

Sayaga PT Bogor Tourism was founded For role make object tourism and potential tour owned by government can managed in a way more professional worthy institution demanded business capable give more service good and competitive in the market in a way free, however in one side is also capable empower and encourage activity economy public especially public lower with more optimal without forget task mainly as one of the PAD contributor to Government Bogor Regency.

In accordance plan period long company (RJPP) PT. Sayaga Bogor tourism is directed For manage business grouped tourism into 3 groups that is Main Business such as Tourism Area Management Integrated , Hotel/ Accommodation Business, Management Object Travel , then There is Business Supporter such as Travel Services Tourism , Media Operator, Event Organizer, then Business Collaboration With SMEs such as , Tourism Culinary and OKB (Typical Bogor Souvenirs), Area Revitalization, Riung Mountain / Peak Rest Area .

In order to know development of BUMD, necessary held analysis evaluation results performance as facilitation effort solution problems of each BUMD. There is analysis results evaluation of BUMD PT Sayaga Bogor tourism is expected can become means For know development performance from PT Sayaga Bogor tourism and the problems faced. With that's how it is results analysis evaluation performance This expected can become material taking decision leader in effort increase quality company, so that PT Sayaga Bogor tourism can reach objective main from his stance that is as one of the Bogor Regency PAD contributor, for push rate growth economy Bogor Regency , as well For increase well-being public around .

RESEARCH METHODS

Assessment method evaluation performance of BUMD PT Sayaga Bogor tourism is carried out based on evaluation aspect finance in accordance with Regulation of the Minister of Home Affairs of the Republic of Indonesia Number 118 of 2018 concerning Plan Business, Plans Work and Budget, Cooperation, Reporting and Evaluation of Regional Owned Enterprises. Data analysis techniques used consists from analysis liquidity, analysis solvency, and analysis profitability as well as guided by the Decree of the Minister of Finance of the Republic of Indonesia No. 826/KMK.013/1992. First step to take For analysis performance that is do calculation components of each factor decider performance.

Liquidity Factor

Analysis factor liquidity done For measure ability company fulfil obligation period in short with see from ratio assets fluent company relatively to debt smoothly (debt period short).

Solvency Factor

Analysis factor solvency used For measure ability company in fulfil obligations period length .

Profitability Factor

Analysis factor profitability used For measure ability company in produce profit (profit) at the level income from sales , assets , and share capital certain . Three components used in analysis factor This are :

- 1. Profit Margins
 - Profit margin is used For count extent of ability company produce profit clean on level sale certain .
- 2. Return on Total Assets (ROA)
 - ROA is used For measure ability company in produce profit clean on level asset certain.
- 3. ROE is used For measure ability company in produce profit net at share capital level certain. next step that is do weighting to results calculation components of each factor. As for components from each analysis as well as its weight among others:

Performance	Performance Component Performance Indicators	
Evaluation Factors		
Liquidity factor	Ratio assets fluent to debt fluent	20
